-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

Non-initialed and/or non-dated alterations have been made to the oath or declaration. See 37 CFR 1.52(c). Applicant has submitted an oath with 30 pages, the 11th page has the space for the fifteen inventor crossed out. This alteration is not initialed or dated (a copy of this page is attached to the back of this Office action). The alteration on the 10th page appears to be initialed.

Election/Restrictions

2. Claims 3-6, 14-42, 45-68, and 71-75 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 22 August 2005:

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 76 and 78-80 are rejected under 35 U.S.C. 102(e) as being anticipated by Gass (2002/0170400).

In regards to claim 76, Gass discloses the same invention including an engaging member (158) pivotally coupled to a portion of a power tool (156), a biasing member normally biasing the engaging member into engagement with the active portion of the power tool (160), and a release mechanism retaining the engaging member in a first position against the biasing member (164 and 166) and operable to release the engaging member into the active portion of the tool (Page 5, paragraph [0048], lines 1-6).

In regards to claim 78, Gass discloses the release member includes a fuse member interconnected between the engaging member and a portion of the tool (164 in Fig. 5).

In regards to claim 79, Gass discloses the release mechanism comprises a controller operable to apply current to the fuse member causing the fuse to fail (166, Page 5, paragraph [0048], lines 1-6).

In regards to claim 80, Gass discloses the fuse member includes a wire (Item 164 is clearly labeled as a fuse wire).

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Friemann et al., Hughes et al., Gass et al. ('341), Gass et al. ('651), Gass et al. ('514), Gass et al. ('586), Gass et al. ('058), and Gass et al. ('473).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason Prone whose telephone number is (571) 272-4513. The examiner can normally be reached on 7:30-5:00, Mon - (every other) Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan N. Shoap can be reached on (571) 272-4514. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
